

FINAL ESSAY INFORMATION!

1. First, you will need to computer generate a outline of about 3 points (do not write out sentences or paragraphs).
2. You can list verse references, not the text of the verses, that you will be using in your essay. I have provided a list of verses that have been used in the past to get you started.
3. The essay is what God says a Christian should be doing in regards to their health and not anything personal about yourself.
4. The essay is two pages handwritten in class. You will attach the outline, with your name/section at the top, to the written paper. I will supply the paper and the stapler.
5. You will have a 45 minute time limit to write the paper. You may bring your Bible to use as you write the paper.
6. Make sure you use at least three to five verses and only write the part of the verse that applies to your point.

OTHER NOTES:
